Monarto Karting Complex 2008

2008 will see the official opening of the first new track to be built in South Australia for nearly 30 years. The Dublin Go-Kart club in conjunction with the Go Kart Club of South Australia are developing the new complex at Monarto, approximately 45 mins out of Adelaide (near Murray Bridge).

History

The Dublin Go Kart Club's facility was closed down over fifteen years ago after a new highway was developed, immediately over the old facility. The club has been seeking land to develop a new complex and in conjunction with the Go Kart Club of South Australia, who met a similar fate when the EPA closed down its track in the Adelaide Hills, have formed a consortium to develop a new facility. After many years of searching land was purchased at Monarto (Murray Bridge) and with funding from the National Association the two clubs anticipate having the track laid and operational by early 2008.

Funding for the project is very tight and whilst the facility will be operational the additional niceties such as clubrooms, judge's box, additional hard surface areas etc will be a little light on until additional funds are raised.

In an attempt to raise additional funding we would like to offer you the opportunity to be a part of this historic event by sponsoring one linear meter of bitumen. In return for your support we will place your name or (company name) on an honor board in the club rooms (listed in alphabetical order). Your contribution and name will be recognized for the life of the facility as Foundation Sponsors. Given that the track is expected to be 1020m we aim to raise a significant amount, which will go towards finishing off the facility in readiness for early 2008.

The Go Kart Club of South Australia and the Dublin Go Kart Club thank you for your contribution and your desire to be part of this magnificent facility.

Regards,
